Excerpt: . . . 11 that applications for disability insurance benefits leveled off in 1994 and have actually declined 16 percent by 1999 despite the fact that more people are moving into the prime ages for disabilities. It seems likely that the tight labor market has contributed to the lack of growth in disability insurance applications. The total number of disabled workers receiving benefits has continued to increase, however, because more people have come onto the rolls each year than have left. The disability program has experienced significant and not fully explained fluctuations over the last two decades. The trustees therefore recommend that the program be monitored closely in coming years. The 2000 Trustees Report intermediate projections show that tax income to the DI fund will exceed expenditures through 2006, but that full DI benefits can be paid until the funds assets are exhausted in 2023. Over the 75-year projection period, the DI fund shows a deficit of 0.37 percent of payroll, or about 16 percent of the programs projected 75-year cost. Combined OASDI Trust Funds If the DI and OASI trust fund projections are combined, the exhaustion date for the combined funds is 2037, 14 years later than for the DI fund and 2 years sooner than for OASI. On a combined basis, expenditures first exceed tax revenues in 2015. From 2016 through 2024 interest income will be needed to supplement current tax income to meet costs, and in 2025 through 2037, current tax income, interest income plus...
