

## Attention and Performance in Computational Vision: Second International Workshop, Wapcv 2004, Prague, Czech Republic, May 15, 2004, Revised Selected Papers

Filesize: 2.33 MB

### **Reviews**

*A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.*

*(Mitchell Kuhn III)*

## ATTENTION AND PERFORMANCE IN COMPUTATIONAL VISION: SECOND INTERNATIONAL WORKSHOP, WAPCV 2004, PRAGUE, CZECH REPUBLIC, MAY 15, 2004, REVISED SELECTED PAPERS

To save **Attention and Performance in Computational Vision: Second International Workshop, Wapcv 2004, Prague, Czech Republic, May 15, 2004, Revised Selected Papers** eBook, remember to refer to the web link below and save the file or gain access to additional information which are have conjunction with ATTENTION AND PERFORMANCE IN COMPUTATIONAL VISION: SECOND INTERNATIONAL WORKSHOP, WAPCV 2004, PRAGUE, CZECH REPUBLIC, MAY 15, 2004, REVISED SELECTED PAPERS ebook.

Springer. Paperback. Book Condition: New. Paperback. 236 pages. Dimensions: 9.1in. x 6.1in. x 0.5in. In recent research on computer vision systems, attention has been playing a crucial role in mediating bottom-up and top-down paths of information processing. In applied research, the development of enabling technologies such as miniaturized mobile sensors, video surveillance systems, and ambient intelligence systems involves the real-time analysis of enormous quantities of data. Knowledge has to be applied about what needs to be attended to, and when, and what to do in a meaningful sequence, in correspondence with visual feedback. Methods on attention and control are mandatory to render computer vision systems more robust. The 2nd International Workshop on Attention and Performance in Computational Vision (WAPCV 2004) was held in the Czech Technical University of Prague, Czech Republic, as an associated workshop of the 8th European Conference on Computer Vision (ECCV 2004). The goal of this workshop was to provide an interdisciplinary forum to communicate computational models of visual attention from various viewpoints, such as from computer vision, psychology, robotics and neuroscience. The motivation for interdisciplinary was communication and inspiration beyond the individual community, to focus discussion on computational modelling, to outline relevant objectives for performance comparison, to explore promising application domains, and to discuss these with reference to all related aspects of cognitive vision. The workshop was held as a single-day, single-track event, consisting of high-quality podium and poster presentations. Invited talks were given by John K. Tsotsos about attention and feature binding in biologically motivated computer vision and by Gustavo Deco about the context of attention, memory and reward from the perspective of computational neuroscience. The interdisciplinary program committee was composed of 21 internationally recognized researchers. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
