Excerpt: .dwellings, shops, etc., by a party of English gentlemen incorporated as the Iron and Steel Works Association of Virginia, Limited. During the first year of its blast it made over 25,000 tons of pig iron, averaging over 100 tons for each day it was in blast; its largest daily output was 153 tons. It went out of blast April 14th, 1884. for some needed repairs to its lining and for some changes that experience in its workings had suggested would increase its efficiency. These repairs and changes are now being made as speedily as possible and by the first of July it is expected it will be again in blast and producing regularly over a thousand tons of pig iron a week.--This furnace was constructed as one of a pair, of equal capacity, to be placed side by side, and it is in contemplation to...
