ROWMAN LITTLEFIELD, United States, 2000. Paperback. Book Condition: New. 269 x 211 mm. Language: English . Brand New Book. Level A: Grades 1-2 Children of the elementary school age think differently than do older children, adolescents, or adults. They are more holistic in their interaction with the world. The hm Program presents study skills appropriate for young children, teaching them to listen, observe, and visualize with greater awareness. Each student workbook teaches and reinforces the essential skills students need to be successful: skills for perceiving, organizing, making sense of, and using ideas and data. The workbook functions as a text for learning study skills and as a resource reference throughout the year.
